PRIORITY

FROM CG USAFIK TO STATE DEPARTMENT INFO JOINT CHIEFS OF

STAFF, CINCPAC CITE ZPOL 779 HODGE SENDS FOR JACOBS.

Following is reported on UNTCOK and related activities since items reported Seoul POLAD number 386, May 25.

1. Meetings: None in Seoul. UNTCOK substantively in session at Shanghai.

2. Convening of Assembly: After our liaison officer, General Weckerling, officially informed Secretary Chu Hung-Ti on May 26 that Assembly would convene May 31, Chu conveyed that information to UNTCOK in Shanghai and requested instructions which arrived May 28 merely to effect that UNTCOK would send neither delegate nor prepared message leaving it to small UNTCOK group here to decide who would attend and what would be said. As Costilhes will attend opening as French Consular representative and as Soo will attend as Chinese Consular representative, Chu will reluctantly do the honors by making few congratulatory remarks. Thus, the Assembly, which is really the creature and child of UN's resolution of November 14 last year, is practically disowned by its parents at its debut party.

We realize that strictly speaking convening of Assembly might appropriately have been postponed until after UNTCOK had made its decision and report on the election, since UNTCOK conceivably might decide that the election was unsatisfactory and that therefore Assembly should never have been convoked. We could not, however, safely postpone matter longer than May 31 because that is one week after last date provided in election law and regulations (approved by UNTCOK) for possible invalidations (only two seats from Cheju Island were invalidated) and because Rhee and his inner coterie are almost explosively pressing for action. To have delayed longer would have caused him to get out of hand with possible unfortunate consequences. On the UNTCOK side, convening date of May 31 gave delegates three full weeks after election to decide whether election was or was not satisfactory but they chose to waste time arguing where to write their report and went off to Shanghai to do so. These are elements of both provocation and tragedy because of possible consequences. Thus those most directly concerned with the present phase-UNTCOK and elected Korean leaders-are fiddling while Russian bear licks his chops on 38th parallel.

3. Contested cases: After careful investigation by our legal experts, Doctors Pergler and Frankel, the contested case of Anny Choi was thrown out for fraud. Thus 198 successful candidates are eligible to present credentials

at the opening session with only two from Cheju Island yet to be chosen by new election on June 23.

4. Return of UNTCOK: Secretary Chu advises that UNTCOK (or part thereof) is expected to return Seoul about June 10.

5. Other telegrams this subject during past week are: Seoul POLAD's numbers 389 and 391, both May 26 and 398, May 27.

SUBJECT: 1948 SUMMER GRAINS

THE HONORABLE

THE SECRETARY OF STATE.

WASHINGTON.

SIR:

I have the honor to forward eight copies of the National Crop Reporting Board's May 5th estimate of 1948 summer grain acreage and production, which was released by the Department of Agriculture, SKIG, on 25 May 1948. This crop estimate was developed from data submitted by the National Crop Reporting Board's field reporters and supplemented by field surveys made by five teams of Korean and American technicians from the National Department of Agriculture during the period 23 April - 5 May 1948.

The acreage planted in summer grains (barley, naked
