3. Civil relations.

a. General Conditions.

- (1) PAEDUN-NI (1136 - 1339) - On 26 September 47 a 53rd FA Bn patrol reported that the people in the area north and northeast of PAEDUN-NI expect a good rice crop; estimates are being taken for the amounts for the collection and the people dislike this.
- (2) CHINYONG-NI (1132 - 1370) - Additional information on incident of 26 September 47. (Ref Par 3a(1) of G-2 Report #708, 26 September 47): The people marching to and from the meeting were the local "Kwang Bok Young Men's Association" members. A patrol to the area reported that the police give no cooperation to the military at all. When the officer in charge of the U. S. patrol asked to see the Chief of Police, he was told that the Chief of Police was out on a patrol, but the Chief of Police entered without a hat on and it was evident that he had not left the station. The officer asked the Chief if there had been crowds marching on 26 September 47 and the Chief stated that there had not been. The officer then told the Chief that the U. S. patrol had knowledge of the crowds in that city on 26 September 47. The Chief of Police then admitted that there had been such activities in CHINYONG-NI. The Rightist police naturally are sympathetic to Rightist demonstrations, and in this area are evidently "covering up" for the Rightists.

b. Civil Disturbances by Province.

(1) Kyongsang-south.

KURA-DONG (1078 - 1401) - HAMYANG (1072 - 1395) police reported to a patrol from the 53rd FA Bn that on 26 September 47 in KURA-DONG Leftists were having an illegal meeting and several Rightists attempted to arrest four of the Leftists and turn them over to the police. Two Leftists escaped and returned with approximately 200 Leftist reinforcements. A disturbance resulted in which three Rightists were injured and their homes destroyed. The Leftists fled to the mountains upon the arrival of the police; no Rightists were arrested.

(2) CHEJU-DO:

(EXTRACT: XXIV Corps G-2 Periodic Report #641, 24 September 47):

"500 students Attack Middle School - Approximately 500 students of the CHEJU Agricultural School demolished a building of the CHEJU Boy's Middle School on 15 September 47 because the middle school students were classified by the other students as 'pro-Japanese'. The destroyed building was a Japanese built structure which housed classrooms."

4. Summary of Intelligence in Adjacent Areas.

None reported.

KUNSAN (972 - 1450) to CHONJU (1015 - 1432) and was forced to land; no passengers were aboard and no one was injured. A preliminary inspection by a mechanic from Camp HILFMYER revealed that a defective carburetor was the source of trouble. Agents of the CHONJU CIC obtained pictures of the plane's instrument readings. The L-5 was repaired and returned to its base.
