MEMORANDUM TO COLONEL BROWN:

2/0 KA

It just occurs to me that you should be informed of the duties we expect of the Officers we are sending in view of your request on Sunday.

Today, we sent Lt Col Chai to be Regimental Commander of the 11th and Major Song to be the Exec. Col Chai was chosen by all the heads here, and I like his appearance; his background seems to be excellent. I understand that Song is a strong man and has a record of being ruthless. We are not sending an Inspector because this boy, Song, is the best we have and you can use him as such.

On Wednesday, the Adjutant will return and I expect the Battalion Commander for your 2nd Battalion will be on that same plane.

I am taking steps to counter what you reported the other day, but the effect of the organization I am planning will not be felt in your direction for some time.

The funeral of Colonel Pak will be held on Tuesday here. His body was cremated yesterday.

I expect I will be seeing you by the end of this week, so take care of yourself. Needless to say, this new man must take steps to protect himself, also.

I am still waiting for a report on your fishing expeditions.

Yours,

W. L. ROBERTS
Brig Gen USA
