1. The following report is furnished for your information and such action as may be deemed necessary:

a. The Terror Movement against the rightist elements in South Korea started from 15 June 1948 under the supervision and leadership of capable North Korean agents.

b. For the time being, Cheju Island will be the center of terror activities. Agents will receive instructions by wireless from ships and radio stations hidden in the mountains.

c. Special precaution must be taken when involving American Occupation personnel and their families in this terror movement. They are not to be approached out in the open or when in a concentrated force. Koreans working for the American Occupation Forces as interpreters or laborers will be taken care of first.

d. American Occupation personnel along the 38th Parallel and along the sea coast can be eliminated without danger to the agents.

2. Evaluation of above information is: source, Fairly Reliable; information, Possibly True.
