

~~CONFIDENTIAL~~

Communist Guerrilla Situation.

C/S, CA

G-2, XXIV Corps

20 September 1948

On 03 and 06 August 1948, this office submitted three G-2 Estimates of Guerrilla Situations (with situation maps) pertaining to the provinces and areas of Kyonggi Do, Chungchong Pukto, Chungchong Namdo, and Cholla Namdo-Cholla Pukto-Kyongsang Namdo to General Dean. It is understood that these were then turned over to the Advisor, National Police, for appropriate action.

Since that time, this office has endeavored to establish effective liaison and coordination of activities with the American Advisors concerning the communist-inspired guerrilla activities but negligible information has been received. Except for a brief, inconclusive oral report by Mr. Berrean, Advisor to the Uniform Bureau, no other information has been received to date.

As the Command is extremely interested in elimination or curtailment of communist activities, it is requested that this office be furnished a summary of police action during the interim period, including comments relative to the guerrilla situation in the aforementioned areas, and clarifying the results of police action.
