MEMORANDUM TO COLONEL BROWN:

It just occurs to me that you should be informed of the duties we expect of the Officers we are sending in view of your request on Sunday.

Today, we sent Lt Col Chai to be Regimental Commander of the 11th and Major Song to be the Exec. Col Chai was chosen by all the heads here, and I like his appearance; his background seems to be excellent. I understand that Song is a streng man and has a record of being ruthless. We are not sending an Inspector because this boy, Song, is the best we have and you can use him as such.
