In spite of the patrol maintained by the KCG, there are indications that remnants of Communist groups escaped to small islands on the south coast and to Cheju do. Patrols and vigilance in these areas must be redoubled to prevent the forming of larger groups which might give us trouble.

At 0500 hrs 28 October about 50nraiders attacked the police box at Samyang-Ni, map ref: 958-1153. The attack started with a Jap hand grenade being thrown into the enclosure resulting in one policeman being killed and two wounded. In the fire fight that followed one other policeman was killed and three more were wounded. When re-enforcements from Cheju City were on their way out to help they were ambushed by a road block and another policeman was killed. The police killed three of the raiders whose bodies I saw. They captured two Jap 99s, three Jap type helmets, and two hand grenades. The night of the 28th fourteen stone road blocks were put up between Cheju City and Samyang-Ni.

During the night of the 28th Major Song the Regimental Commander had seventeen EM of the 1st Bn arrested as members
