KMACADD 472

10 February 1949

SUBJECT: Report of Ordnance Advisor's Trip to 2nd Regt - Cheju

TO: Chief
Korean Military Advisory Group
APO 235

4. Comments regarding each of the specific observations noted under par 3, above, are as follows:

g. Some of the non-Ordnance activities observed and believed worthy of note are as follows:

- (1) Liaison planes dropping propaganda leaflets, hand grenades and mortar shells rather indiscriminately.
- (2) The superiority attitude of the KA soldier and local police to the native populace is believed to be un-necessarily harassing and driving peaceful citizens to rebel activities.
- (3) KMAC personnel are believed to be un-necessarily subjected to hazards due to meager numbers, lack of communications, dependence entirely on KA soldiers for guard, inferior facilities and continually stirred-up local villages through executions apparently without trial, and encroachment on civilians' rights by soldiers not believed to be too well controlled or disciplined.

Sir,

The other day you asked me to inform you of the results we have of the amnesty program in the ChollasDoo and in Cheju Do.

I have the honor to inform you that in Honam during the period 1-17 January, 5765 SKLP, 52 Rebels and 1664 Guerrillas have turned in. In Cheju Do 2200 Civilians have surrendered to the 2nd Regiment. Reports indicate 300-500 are turning in daily.
