I. POLITICAL SECTION.

6. Election Question.

The rightists can pull their greatest source of power from their strong and hold on police, Gun, Hyun, and other official posts. The return of Nils, Syng Man and his so-called diplomatic success will undoubtedly be an added factor to the rightist's favor. In the ILA election, the rightists, with only Cheju Do as an exception, completed a landslide. This election, handled on a democratic secret ballot system will be harder to control outrightly than the past elections. The names of important personages within the provinces also fall into the categories of this group. Undoubtedly the rightists will be able to publicly campaign more than any other group, will probably use guised official means, their financial powers and others to complete an election to their own favor.

III. E.S. & M.

1. Espionage.

Training: In the mountains of Cheju Do training is carried on in terrorism by Korean and Jap Communists - the Hwasun mine incident was carried on by trained agents from Cheju Do. About 30 May 1947 an incident similar to Hwasun Mine incident is to take place.

PAK, Heun Young is supposed to be on the Island (Cheju) around 22 April to prepare for the incident. Women agents take part in Communist liaison missions from there to Japan.

All fifth columnists in SK are instructed to steal parts of locomotives and RR facilities necessary for RR in NK. The coming incident is to begin with the destruction of the RR Transportation system in SK.

One Nakashima left for Cheju about 12 April carrying a message from BAK, Tchawag.
