

island will soon prove to the public that no such base is in construction.

MISCELLANY

A recently established MG Welfare Kitchen is meeting with approval among the laborers of the island. It is still too new for any general comment, but as per all projects instigated by the Department of Public Health and Welfare of Military Government anywhere in Korea, it is sure to meet with grateful acceptance.

Distribution of the Chukan Digest and the Farmers' Weekly has greatly improved recently. Department of Public Information posters are now posted quite regularly on bulletin boards throughout the island.
