제주 경찰에 관한 요약 보고서(1948. 7. 30)

~~30 July 1948~~

SUBJECT: A Summary Report on the Jeju Police

MEMORANDUM TO: Director, National Police

THRU : Adviser, National Police

1. The attached letter of 10 June 1948, subject as above, has been carefully considered.

2. The recent situation on Jeju Island was unusual and required an increased strength of Police and Constabulary in order to insure the restoration of law and public safety. Any decision at this time for the permanent augmentation of the Police would be based on an unusual situation and would be hard to change in the future. An increased Police Force on the Island in rank and status, once made, will remain a burden to the economy of Korea whether actually required or not.

3. The Korean Constabulary plans to rotate regiments to Cheju-Do for field-training. A regiment will remain there for a period of four to six weeks. There will always be a regiment training in the mountains. This will contribute to preventing dissidence from fleeing to the mountains and organizing and training there. It also gives the Police a force that can give them real support and backing. The Governor of the Island will always have on call a Constabulary Regiment composed, for the most part, of non-island personnel. The temporary over-strength of the Police on Cheju-Do at this time should not be reduced too quickly. However, the least number of Police necessary for the maintenance of law and order should be the number decided upon as a garrison for Cheju-Do.

4. Every effort must be made to recruit Islanders for the Police Force there, and they must be trained at the Police School on Cheju-Do. This School should have specially selected instructors of National Police Force. The senior Police official of the Island must be instructed to work for the Governor of Cheju-Do. It must be distinctly understood at all times that the Governor of Cheju-Do is the No. 1 man on the Island and that the Police and the Constabulary are his instruments for maintaining peace and public order.
