CHEJU-DO TASK FORCE JOURNAL

31 July 1948

SUBJECT: Journal For Weeks 20-31 July

TO : Commanding Officer
Twentieth Infantry
APO 6 Unit 2

20 July (Tuesday) Started off my first day as CO of Cheju Task Force by reading General Wards letter and digested the contents~~xxx~~. Naturally I intend to do my best to take advantages of this independent command. During the morning we had training while the usual number performed guard duty. In the afternoon we had ~~xxx~~ details policing the wood and debris about the area. The storm really made a mess of this place. The carpenters were busy as usual as they screened the latrine and another put a roof on the generator shed. There is some more work to be done on the screening. A few are punched out and some doors do not remain closed of their own accord. I'm a little worried about Malaria Control and intend to stress it a great deal in the next week. During my inspection of barracks this morning I noticed too that that building is a serious fire hazard. It would go up very quickly if it ever caught fire. Having 10 more butt cans made for that building. After supper we had a number of men out for athletics. The soft ball team practiced for a while and a great number of the men have taken a fancy to the golf clubs which we just unpacked. The wirstrip is a wonderful place to play golf and I talked to several of the men tonight about rigging up a golf course. They are all for it and so am I. I think the athletic facilities here are adequate. Those who are interested in athletics find plenty to do. We are going to put a tennis court next week. And when we get our horseshoe courts that should round out our athletics facilities. Phoned Major Noel, CO of the 59th MG Group, tonight in connection with the expected arrival of a cruiser and a destroyer from the US Navy tomorrow afternoon. He
