(c) Troop Movements, Concentrations, Incidents and Operations:
Constabulary troops Cheju Island report they have nullified Communist plot to gain control island; claim they killed 135 Communists 30 October.

Comment: No specific reports received concerning Communist connections with latest riots but Communist influence possibly instrumental in initiating series Constabulary revolts. Also possible that groups were disaffected by elements favoring unification Korea under leadership KIM Koo. Reports indicate rioters coming into open and operating in small groups which may be advantageous to loyal Constabulary units attempting to subdue dissidents.
